

IDENTITY SYSTEM / VERSION 1.0

Brand Guidelines

A visual and verbal system for turning model instability into clear, reproducible evidence.

THE PREMISE

Find what breaks. Know exactly where.

CVFuzz searches for the smallest realistic transformation that destabilizes a computer-vision model.

“

Turn model instability into a measurable, reproducible boundary.

BRAND CHARACTER

Rigorous, never rigid.

Laboratory precision, investigative curiosity, and calm reporting in equal measure.

01

Precise

Name the object, parameter, threshold, and evidence.

02

Investigative

Probe methodically. Let the result lead the story.

03

Calm

Report risk without drama, fear, or inflated claims.

04

Transparent

Separate observed instability from proven model error.

TRANSFORMATION 01 / FOG

Visibility is a variable.

The identity treats every visual effect as a measured condition, never as decoration.

APPROVED MASTER

One mark. One source of truth.

Use the supplied horizontal lockup exactly as provided. It combines the detection symbol and custom wordmark in their approved relationship.

LIGHT MASTER

PNG / 2172 x 724 px

APPROVED SURFACE

White or CVFuzz Paper

DARK MASTER

Dark fields / 2172 x 724 px

MISUSE

Do not dilute the idea.

01 / No

Stretch or rotate

Preserve the approved aspect ratio and orientation.

02 / No

Change colors

Do not recolor the symbol, accent, or wordmark.

03 / No

Add effects

No glow, shadow, outline, bevel, or gradient.

04 / No

Create extra glitch

The controlled disruption is already intentional.

05 / No

Place inside a badge

Use the approved light plate only when needed.

06 / No

Retype the wordmark

The lettering is custom artwork, not live text.

CORE PALETTE

Color is signal.

The palette is intentionally narrow. Deep neutral fields create authority; Signal Lime identifies the precise point that matters.

PRIMARY

CVFuzz Ink

#0B0E12 / RGB 11 14 18

ACCENT

Signal Lime

#D7FA03

SURFACE

CVFuzz Paper

#F7F9F2

STRUCTURE

Mist

#E7ECE3

SECONDARY

Slate

#69737F

PROPORTION AND CONTRAST

Use color with intent.

Brand color guides attention. It must never become the only carrier of state or meaning.

RECOMMENDED VISUAL PROPORTION - NOT A RIGID LAYOUT FORMULA.

Aa

Ink on Paper / 18.22:1 / AAA

Aa

Ink on Signal / 16.18:1 / AAA

Aa

Signal on White / 1.20:1 / Fail

Never set small lime text on white. Pair state colors with labels, shapes, patterns, or icons.

TRANSFORMATION 02 / MOTION BLUR

Movement has a boundary.

A cinematic image remains useful only when the condition and threshold stay legible.

PRIMARY TYPEFACE / GEIST SANS

Precision
under pressure.

ABCDEF GHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
0123456789 / = + - %

ROLE	Headlines, interface, reports, explanation
CASE	Sentence case by default
WEIGHTS	Regular / Medium / Semibold

HIERARCHY

Explanation and evidence need different voices.

GEIST SANS / NARRATIVE CHANNEL

The bicycle detection fails at 11 px.

Use Sans for the finding, context, guidance, and product interface. Keep long-form lines between roughly 55 and 80 characters.

GEIST MONO / EVIDENCE CHANNEL

```
$ cvfuzz run street.mp4
```

```
transform motion_blur
```

```
object bicycle #04
```

```
boundary kernel = 11 px
```

```
status confidence_collapse
```

Use Geist Mono for parameters, commands, seeds, paths, model identifiers, and reproducibility metadata. Never set narrative paragraphs entirely in monospace.

VERBAL IDENTITY

Say what happened. Then prove it.

Observation -> Boundary -> Reproduction

The bicycle detection fails at a motion-blur kernel of 11 px. Reproduce it with the saved configuration and seed.

USE

Probe. Boundary. Evidence. Reproduce. Compare. Stability. Minimum breaking change.

AVOID

Unbreakable. AI-proof. Perfect. Guaranteed safety. The smartest tester.

VISUAL GRAMMAR

One deliberate break.

Keep the field orderly. Introduce one precise offset, fracture, scan, or trail.

**SYSTEM RULE**

Use detection geometry as structure. Let disruption appear only where the threshold is found. Never decorate with random glitch.

TRANSFORMATION 03 / LOW LIGHT

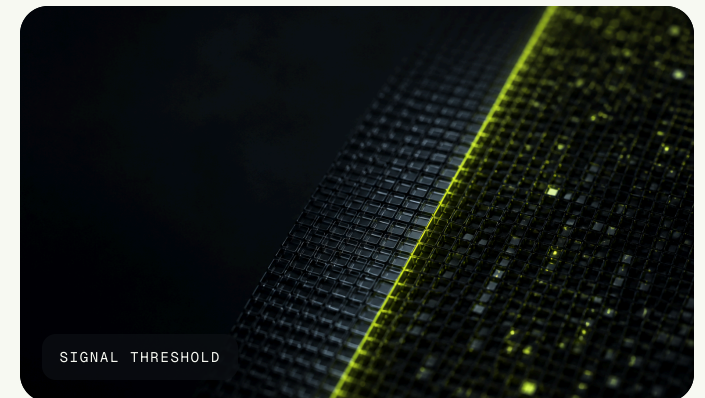

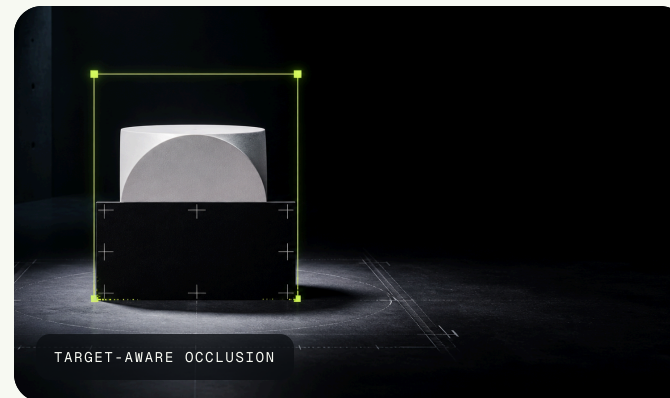

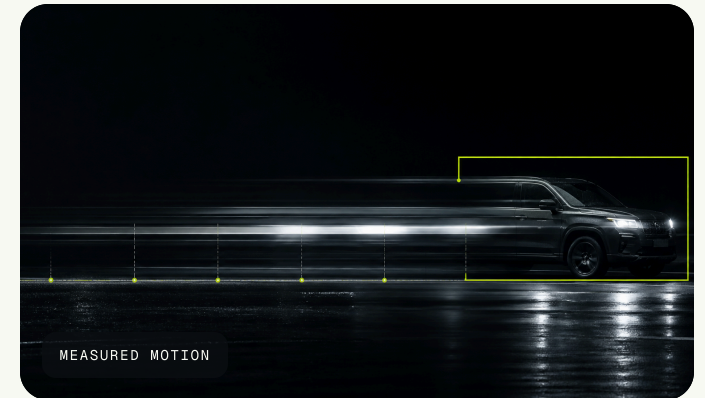

Signal becomes noise.

Texture is meaningful when it expresses a real transformation and a readable transition.

ART DIRECTION

Evidence, made cinematic.

Deep blacks, realistic transformations, restrained overlays, and one Signal Lime focal point.

TRANSFORMATION 04 / OCCLUSION

Hide less. Learn more.

Every application image should reveal how the test is controlled, not merely that something failed.

APPLICATION / PLATFORM

The interface is the evidence.

Frames, detections, parameter sweeps, and failure boundaries carry the identity. The logo appears once; the work stays central.

CONCEPTUAL APPLICATION MOCKUP / NOT FINAL UI

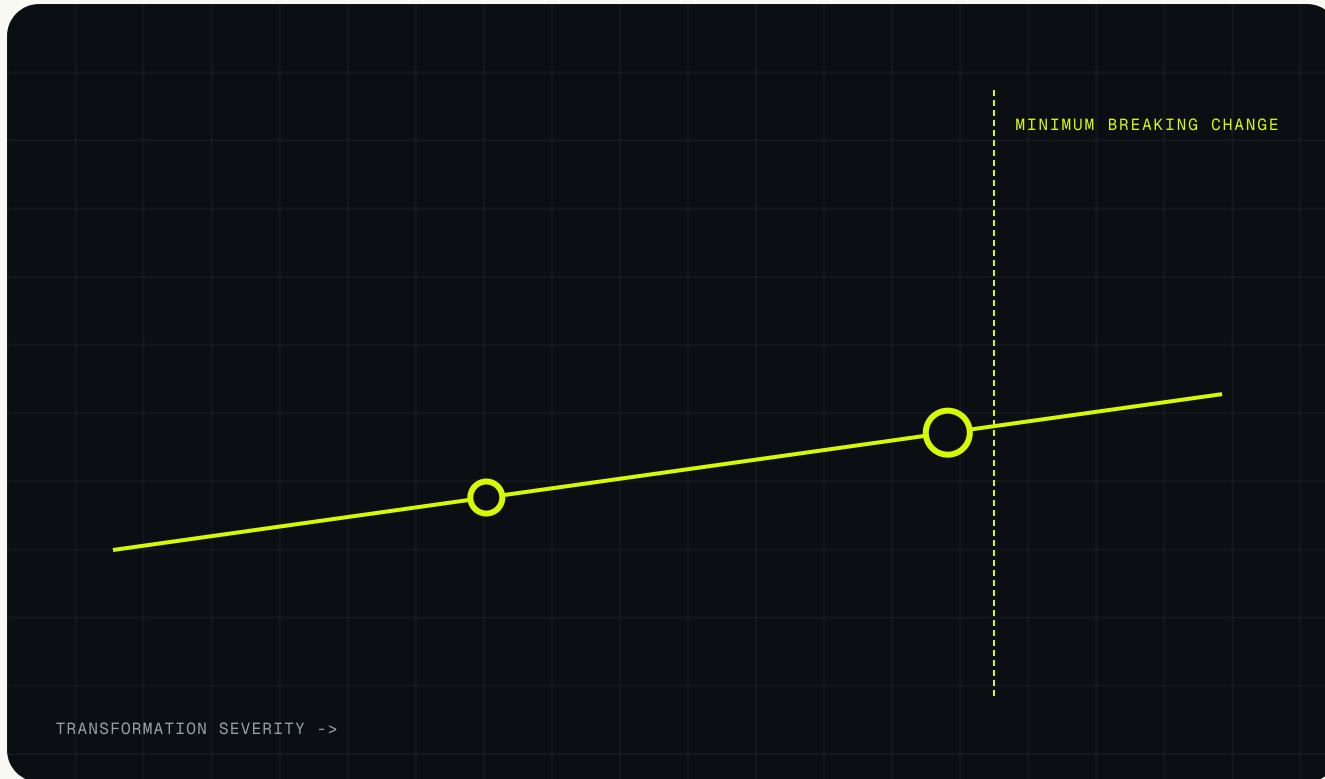

PRODUCT IN CONTEXT

DATA AND INTERFACE

Show the boundary, not the brand.

Brand elements frame the result. They never compete with model evidence.

Baseline first

Always show the stable reference before the changed condition.

Boundary second

Make the minimum breaking parameter easy to locate and compare.

Reproduction always

Expose enough model, config, seed, and input context to rerun the result.

Semantic colors stay separate

Signal Lime cannot mean success, warning, error, and information at once.

FROM IDENTITY TO PRODUCT

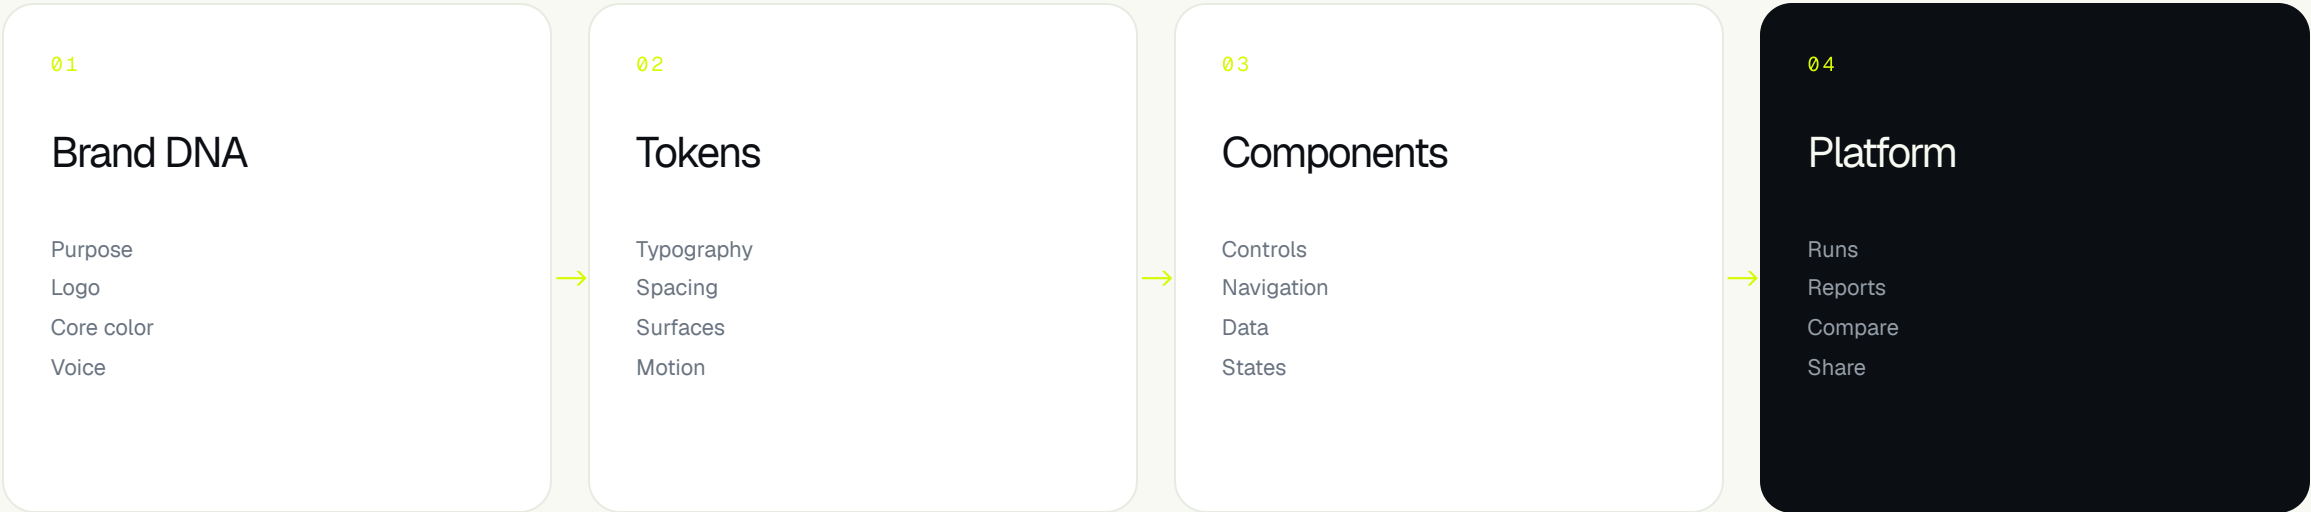

Stable DNA. Flexible system.

The brand defines the signal. The future design system defines how that signal behaves at scale.

BRAND -> DESIGN SYSTEM

Build from stable DNA.

The brand layer remains recognizable while product tokens, components, and interaction patterns evolve around real platform needs.

ASSET ROADMAP

Grow one system, not many.

NOW

Foundation

- 01 Approved master lockup
- 02 Editable HTML brand book
- 03 Core color system
- 04 Voice and imagery

NEXT

Production set

- 01 Redrawn vector masters
- 02 Monochrome versions
- 03 Symbol and favicon family
- 04 Export presets

LATER

Product system

- 01 Semantic UI tokens
- 02 Component library
- 03 Data palette
- 04 Motion language

Do not auto-trace the PNG and call it final. Production variants must be redrawn cleanly, compared against the approved master, and released as one coordinated family.

BRAND ESSENCE

Controlled distortion. Clear evidence.

Find what breaks. Know exactly where. Make
every result reproducible.

VERSION 1.0 / AUGUST 2026
