

Brand Guidelines

A visual and verbal system for turning model instability into clear, reproducible evidence.

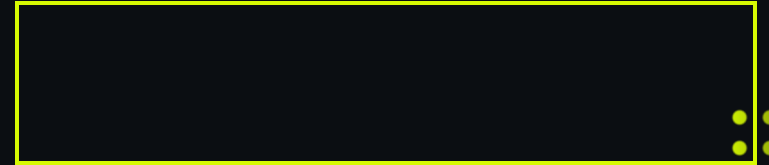

Find what breaks. Know exactly where.

CVFuzz searches for the smallest realistic transformation that destabilizes a computer-vision model.

“

Turn model instability into a measurable, reproducible boundary.

Rigorous, never rigid.

Laboratory precision, investigative curiosity, and calm reporting in equal measure.

Precise

Name the object, parameter, threshold, and evidence.

Investigative

Probe methodically. Let the result lead the story.

Calm

Report risk without drama, fear, or inflated claims.

Transparent

Separate observed instability from proven model error.

Visibility is a variable.

The identity treats every visual effect as a measured condition, never as decoration.

One mark. One source of truth.

Use the supplied horizontal lockup exactly as provided. It combines the detection symbol and custom wordmark in their approved relationship.

LIGHT LOGO

PNG - 2172 x 724 px

APPROVED SURFACE

White or CVFuzz Paper

DARK LOGO

Dark fields - 2172 x 724 px

Do not dilute the idea.

Stretch or rotate

Preserve the approved aspect ratio and orientation.

Change colors

Do not recolor the symbol, accent, or wordmark.

Add effects

No glow, shadow, outline, bevel, or gradient.

Create extra glitch

The controlled disruption is already intentional.

Place inside a badge

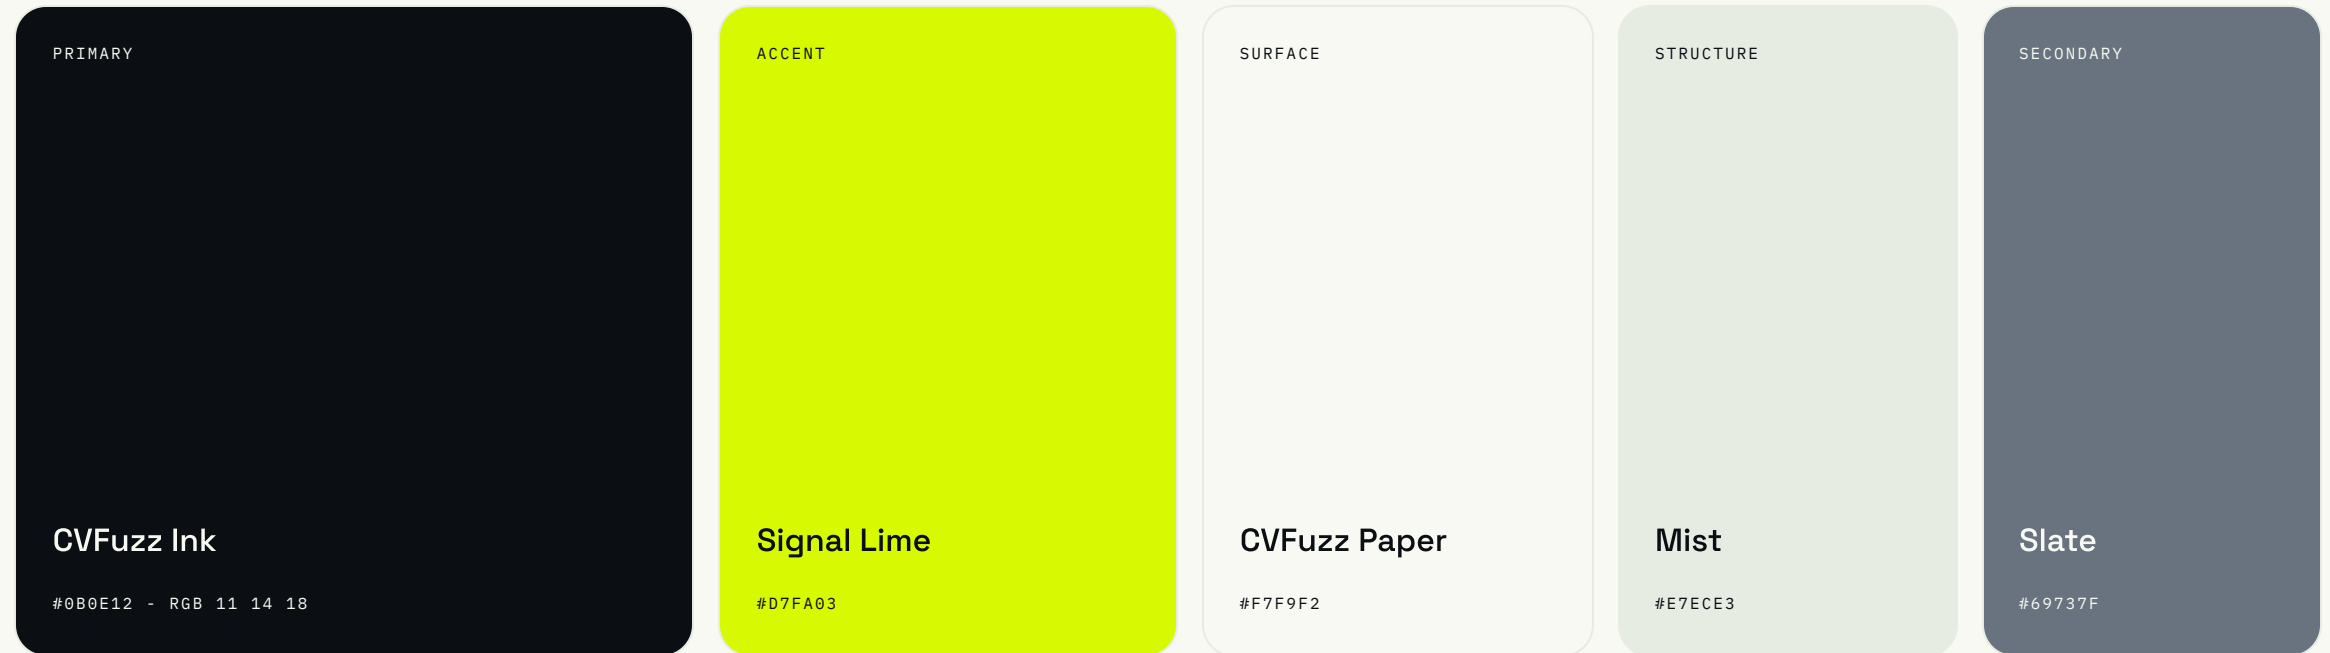

Use the approved light plate only when needed.

Retype the wordmark

The lettering is custom artwork, not live text.

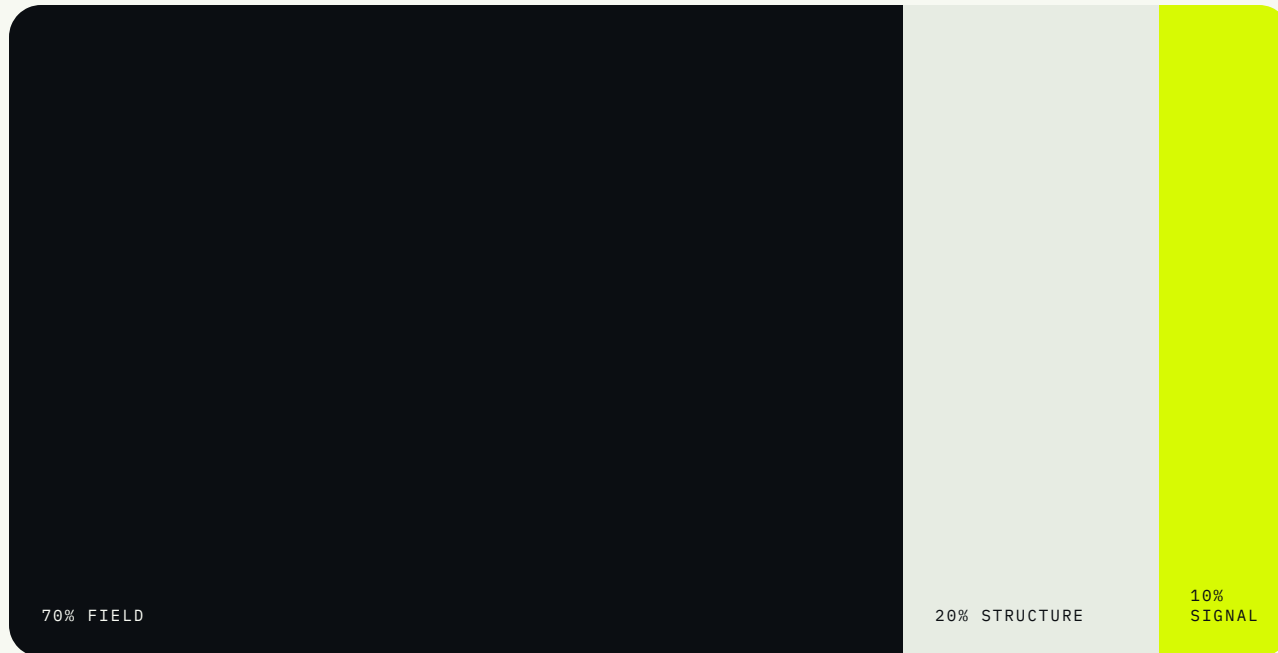

Color is signal.

The palette is intentionally narrow. Deep neutral fields create authority; Signal Lime identifies the precise point that matters.

Use color with intent.

Brand color guides attention. It must never become the only carrier of state or meaning.

Aa

Ink on Paper - 18.22:1 - AAA

Aa

Ink on Signal - 16.18:1 - AAA

Aa

Signal on White - 1.20:1 - Fail

Never set small lime text on white. Pair state colors with labels, shapes, patterns, or icons.

Movement has a boundary.

A cinematic image remains useful only when the condition and threshold stay legible.

Space Grotesk

Precision under pressure.

ABCDEFGHIJKLMNOPQRSTUVWXYZ

abcdefghijklmnopqrstuvwxyz

0123456789 = + - %

ROLE

Headlines, interface, reports,
explanation

CASE

Sentence case by default

WEIGHTS

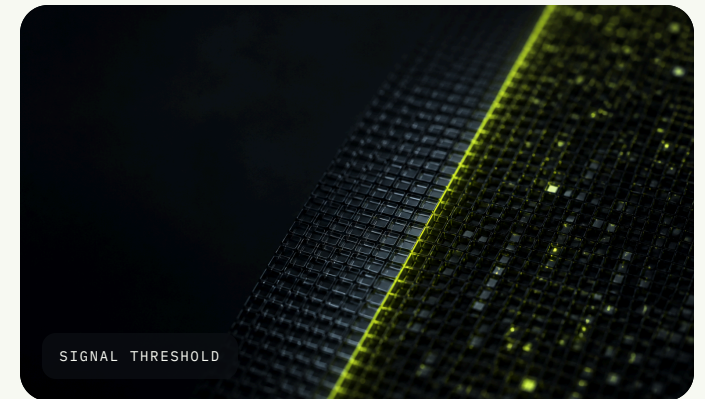

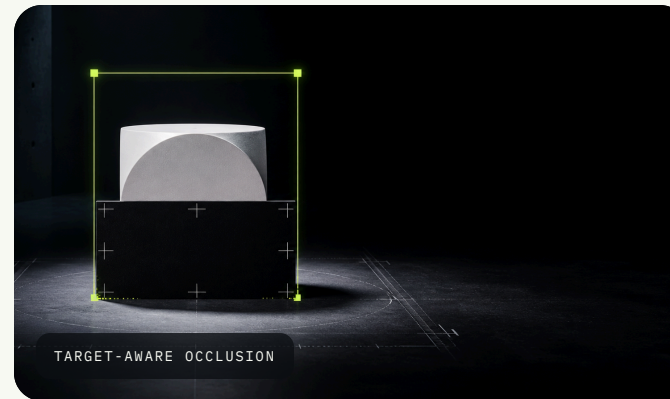

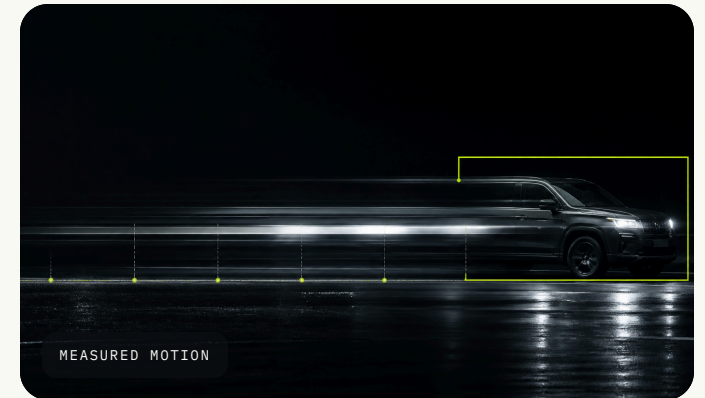

Regular, Medium, Semibold

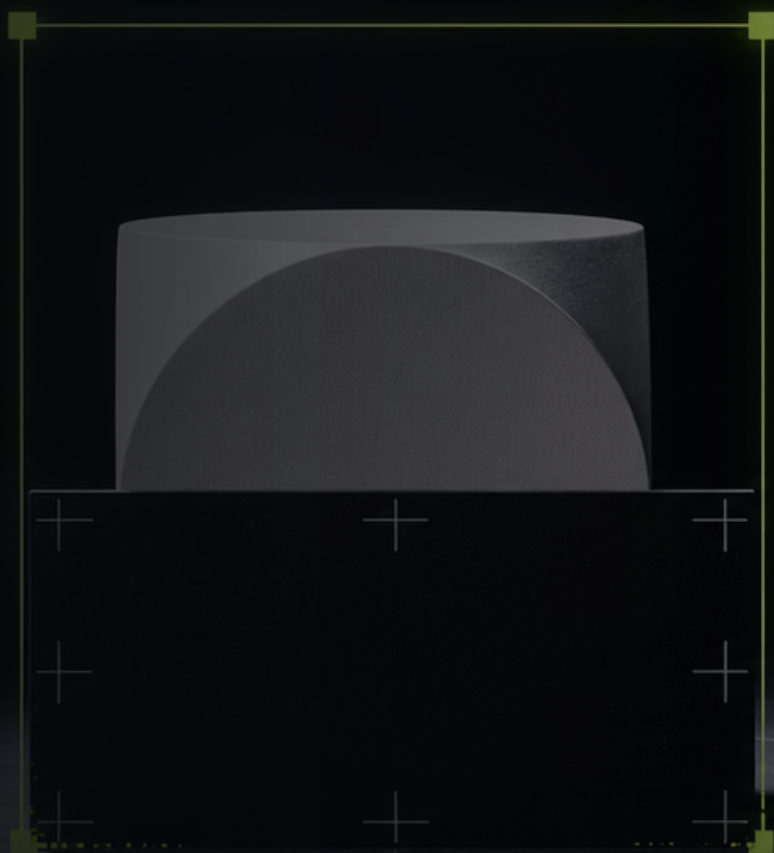

Signal becomes noise.

Texture is meaningful when it expresses a real transformation and a readable transition.

Evidence, made cinematic.

Deep blacks, realistic transformations, restrained overlays, and one Signal Lime focal point.

Hide less. Learn more.

Every application image should reveal how the test is controlled, not merely that something failed.

The interface is the evidence.

Frames, detections, parameter sweeps,
and failure boundaries carry the identity.
The logo appears once; the work stays
central.

Controlled distortion. Clear evidence.

Find what breaks. Know exactly where. Make
every result reproducible.
